

**PLATEminus™**  
MM-PLATE-1-Y-MC  
Weight: 335 grams\*

PLATEminus™ is the fourth product released from the MOLLEminus™ family – utilizing one piece of hydrophobic ULTRAcamp™ rather than sewn layers of nylon as a MOLLE platform. PLATEminus is the lightest, thinnest fully MOLLE compatible plate carrier with adjustable shoulder straps. Two Fastex buckles enable PLATEminus to be put on or removed in seconds.

### Features

Patent pending MOLLEminus™ Technology • Holds SAPI and ESAPI style armor plates\*\* • Color matched materials for maximum signature reduction • Available in sizes medium and large - choose size according to plate size • Available in other colors upon request\*\*\*

### Materials

TEX 70 bonded nylon thread • ULTRAcamp™ high performance laminate • INVISTA® Solution Dyed CORDURA® fabric • ITW GhillieTEX™ Low IR hardware • Tweave fabric

\*Weight dependent on size
